TEAM & THE LEARNING ENVIRONMENT

Nestled at a convenient distance from town (nature), Mount Zion School provides a dynamic learning environment with experienced staff working collaboratively for creating a conducive teaching-learning environment. The school inspires success in producing confident children. Keeping up with our Motto that is 'Truth and Perseverance' we inculcate the value of Truth; to be true to self first and persistence in doing something despite difficulty or delay in achieving success. We firmly believe that a child learns through his/her own experience which is why we provide them with a platform to perform. Our students learn by being part of the process of learning; by performing, presenting and memorising the lesson. These lessons will not only help them to excel in the tests of life but also make them a better human. Our expert team dedicated to Research & Development develops curriculum that is scientifically designed to help children age-appropriately. Outdoor classes are also a part of the curriculum. Teachers take utmost care about the uniqueness of children and teach according to a child's need.

LEAD

- * LEAD has developed end to end technological solutions for every stakeholder involved in the child's learning process.
- * The purpose of LEAD's app is to help stakeholders work simultaneously towards a child's holistic growth.
- * It is a LMS (Learning Management System), which helps not only students but also the parents to keep a day to day learning progress of the child. The parents section of the application helps the parents to view student report, notices, and academic calendar.
- * Students can assess their learning and submit homework easily via LEAD student App.
This application also provides the gateway to practice with friends with quizzes, flashcards and daily challenges. Additionally the child can choose to practice alone or even with their friends.
- * At LEAD, students excel in coding and computational school.
